

**Start your Red Sea adventure today...**

**Itinerary:** Project Shark: Daedalus & St Johns  
**Dates:** 18th - 25th May 2018  
**Aboard:** M/Y blue Fin

**The Vessel...**

Built in 2005, M/Y blue Fin is the first vessel in the blue o two Egyptian liveaboard fleet. She is 39m in length and takes a maximum of 24 divers on each trip. She went through an extensive refit early in 2016 and now has a great contemporary look and feel. All cabins benefit from en-suite facilities, air conditioning, mini refrigerators and personal entertainment systems and the 3 king suites also offer large double beds and bigger plasma screens. These king suites which dominate the bow on the lower and middle decks, spreading the whole width of the vessel - the perfect treat for couples. M/Y blue Fin is equipped with a nitrox membrane, booster pump and can also cater for rebreather divers.

**The itinerary...**

This exciting allows you explore the beauty of the southern Red Sea with the added bonus of visiting the marine park of Daedalus Reef. Daedalus is a large, remote reef covered in hard and soft coral formations and offers beautiful scenic dives with an abundance of marine life. Daedalus also offers excitement... at the right time of year you can sit out in the blue and will have a good chance of seeing some of the Red Seas famous sharks!

The aim of 'Project Shark' is to highlight the global issues facing sharks, with a Red Sea focus, as well as enjoying some of the most spectacular reefs that the Red Sea has to offer. Founded by our expert dive guide and marine biologist, Elke Bojanowski Ph.D, in her quest to track and collect basic population data on oceanic whitetip sharks (*Carcharhinus Longimanus*), in the Egyptian Red Sea.

**£1,099 per person**

**Includes:** Return flights LGW-HRG, Visa, transfers from/to airport in Hurghada, 7 nights full board accommodation, tea/coffee/water/soft drinks, snacks, 6 days diving, 12lt cylinder and weights.

- **Day 2** - St John's Reef
- **Day 3** - St. John's Reefs (Gota Kebir, Gota Soraya, Habili Ali, Habili Jaffa, Umm Aruk & Dangerous), St Johns Reef, St' John's Caves, Sataya
- **Day 4** - Fury Shoal (Shaab Claudio, Abu Galawa Soraya, Shaab Maksour, Malahi, Abu Galawa Kebir)
- **Day 5** - Daedalus
- **Day 6** - Elphinstone, Marsa Mubarak

## Itinerary Highlights:

### Daedalus

This huge reef rises from the sea bed in the middle of the Red Sea. Easily recognized by its zebra-striped lighthouse, this massive reef offers some of the most amazing dives in the Red Sea. The sheer walls are covered in over-grown hard coral formations and a variety of reef fish. Napoleon wrasses and turtles are often cruising by, but make sure you keep your eyes open on the blue! Daedalus is one of those places where anything can happen... oceanic white tip reef sharks, grey reef sharks, a lonesome hammerhead shark or schools of them. The excitement and the sheer size of this reef means that you can do several dives and not get bored!

### Elphinstone Reef

A Red Sea legend. Elphinstone is a beautiful long reef with its walls, north and south covered in hard and soft corals. It offers colourful scenery and a very good variety of reef fish... the occasional visiting pelagic can make this dive site very interesting.

### Fury Shoal

This large cluster of reefs offers unforgettable and easy dives. From the northern site of Small Abu Galawa to its most-southern site of Sataya, Fury Shoal can prove to be surprising and diverse. Each dive site has its particularity: from dolphins, to stunning hard coral formations and not forgetting the two little wrecks, "Tug Boat" and the "Yacht". Often overlooked, its beauty and easy diving will be welcomed after currents and wall diving!

### St. John's Reef

Located on the Tropic of Cancer, this chain of reefs is the furthest South you will get! All its dive sites are very close to each other which means that you can easily move from one place to another. It therefore adds a lot of variety to your dives: drop-offs, tunnels and stunning hard-coral formations. One of these dives (St John's Caves or Umm Kharalim) is truly unique and is a photographers heaven with rays of light filtering through into the beautiful tunnels. The reef formation is not the only thing that will stun you at St John's... the marine life and the colours of the soft corals are one of the best in the Red Sea. With any luck, dolphins or pelagics will join you on the dives and St John's will forever have a place in your heart.

**All dive sites are subject to weather conditions and cannot be guaranteed.**
